## **COPAYS-DEDUCTIBLE-ESTIMATED AMOUNT DUE**

Stockdale Radiology makes every effort to provide you with an accurate amount due at time of service. Insurance eligibility/benefits update as doctors offices' submit billing and do not always reflect accurate deductible amounts.

Stockdale Radiology has made the decision to collect applicable copays and 30% of your remaining amount due at the time of service. This will avoid overcharging. Please remember the amount IS ONLY AN ESTIMATE. Your insurance will processes the claim based on benefits, medical necessity and authorization. You may receive a bill for a remainder due. This amount is due upon receipt.

Exam cost is determined by the insurance companies and not this office. Doctors are legally obligated to bill your insurance and collect as instructed by your insurance company. We cannot forgive this portion. If you have any questions about our billing, our staff is happy to assist. If you have questions about your policy coverage please call your insurance company directly. Insurance companies state that patients are responsible to know their own benefits.
